NATURAL RESOURCES	- - -	

## WHAT IS THE POLLUTION SOLUTION?

POLLUTION PROBLEMS	HOW CAN WE HELP?
WATER	
LAND	
AIR	

1. What are four types of pollution?
  
2. How is the Earth a closed system?
  
3. Where does **MOST** of our pollution come from? Give some examples of how this happens.
  
4. What are two things that happen when we cut down trees? (deforestation)
  
5. What is noise pollution? What can it cause?
  
6. MOST air pollution comes from \_\_\_\_\_. We can help fix this by using more \_\_\_\_\_ and filtering air from power \_\_\_\_\_.
  
7. How can we save energy together in our homes?
  
8. What is acid rain caused by?
  
9. What did you learn from Bill Nye today? What interests you or shocked you about this topic?
